

Persons mentioned in Daniel J Stewart's Branch County Mi diaries

Here are some of the people mentioned in the California Mi Area diaries. This work is still being worked on. There are some OCR errors Note that an "s" follows many names that is because he states that he went over to the "Allens". It has been left attached to remind researchers in case they search for that word. You can search these books using Ctrl+f This revision does may possibly not have all births marked because he doesn't often say born often instead he says "folks" usually meaning wife, "found" or "had" or it is not mentioned at all. Dark red font means relative to Dan Stewart. If you combine these works with my census recordings you have great sources of information. Sincerely Wesley Arnold historical researcher and Thurston's grandson.
